

Welcome to the PG&E Humboldt WaveConnect™ Public Meeting

February 2, 2010
Eureka Veteran's Hall
1018 H Street, Eureka, CA

This meeting is being held to:

- Provide updated information about, and timeline for, the Humboldt WaveConnect pilot project;
- Share information about the public engagement and environmental review processes;
- Gather feedback from the community on the Humboldt WaveConnect pilot project prior to filing the Draft Pilot License Application in late February, 2010; and
- Address questions and gather input for the **Humboldt Working Group (HWG)** and PG&E to further address.

AGENDA

5:30 – 6:00 pm: Open House

WaveConnect staff, consultants and HWG members will be available at stations to discuss specific aspects of the proposed Humboldt WaveConnect pilot project and to answer individual questions. Comment cards are available and we encourage all attendees to fill them out.

6:00 – 6:30 pm: Presentation and Panel Discussion

PG&E and Humboldt Working Group members will present and discuss progress on the project in 2009/2010, including:

- Overview of the proposed pilot project
- The Humboldt Working Group and topics collaboratively discussed to date, including:
 - o Site selection
 - o Wave Energy Converter (WEC) selection efforts to date
 - o Environmental review and permitting
 - o Community benefits and partnerships
- Overview of the proposed pilot project timeline
- Next Steps

6:30 – 7:30 pm: Questions and Answers

The public will have an opportunity to submit questions via comment cards to be addressed by the PG&E presenters and the Humboldt Working Group (HWG) panelists, followed by open Q&A. Panelists include:

PG&E Panelists:

William Toman, Senior Project Manager

Ian Caliendo, California State Agency Relations

Rick Williams, SAIC, Engineering Consultant

Doug Davy, CH2M HILL, Environmental Permitting Consultant

Anna West, Kearns & West, Public Involvement and Facilitation Consultant

(continued)
