ADDENDUM TO INVITATION FOR BIDS
Humboldt County Office of Education
Proposition 39
Furnace Replacement
Bid No. 17-011
Addendum #1
May 16, 2017

To All Prospective Bidders:

The Humboldt County Office of Education (District) herewith issues Addendum No. 1 to the above-referenced solicitation. This Addendum shall be made part of the Contract Documents and the bidder shall acknowledge receipt thereof on the Bid Proposal Form. Except as specifically modified by this document, all other terms and conditions remain in full force and effect.

Revisions and/or Additions to Scope of Work:

1. Preparation work:
   a. The Contractor shall verify the adequacy of the existing gas piping line to the furnaces- include enlargement of piping as required.
   b. Terminate and cap existing supply and return piping at the existing boiler. Remove all electrical circuits to the point of origin.

2. Revised mechanical plans:
   a. Replace previously issued sheets with revised mechanical plans, (sheets M0.1 and M2.1), attached.
   b. Revisions are clouded and marked by symbol "A", - revisions have been made subsequent to the project walk through held on 5/10/17.
   c. Electrical and mechanical contractors bidding the work shall review and coordinate the installation of all fire alarm components, sensors and fan shut down features.

3. Repair finishes at corridor openings:
   a. At the installation of all new smoke / fire dampers located at the Corridor plaster ceiling (above the existing suspended ceiling) frame new openings and install new dampers per 3/A2.01.
   b. Repair adjacent finishes with 3/4" plaster or 5/8" Type X GWB fire taped and blended to existing plaster ceiling.
   c. Remove and replace existing suspended ceiling tiles as required to access the ceiling above and complete the work- replace any damaged ceiling tiles.

4. Infill corridor ceiling openings:
   a. At any scheduled removal of ducts or registers (through the original Corridor plaster ceiling), infill the openings with one hour rated assembly per Diagram 002, attached.
5. **Repair existing draft stops**
   a. Repair existing draft stops extending beyond the boundary of the corridor walls to the exterior wall line in a like manner to detail 3/A3.01- minimum 1/2" CDX plywood on one side of framing.

6. **Workers Compensation acknowledgement**
   a. The Workers Compensation signature is intended to indicate the bidder has read and understood the applicable law. The successful bidder will be required to provide evidence of Workers Compensation Insurance coverage, as applicable to his/her legal status coverage requirement.

7. **Schedule**
   a. Prior to the Pre-Construction Meeting, the contractor shall provide an accurate construction schedule which is to include coordination of key dates with the HCOE, Project Manager and inspector.
   b. Complete demolition of heater platforms and catwalks above administration building **no later than August 27, 2017.**
   c. Complete balance of installation **by no later than September 15, 2017.**
FLOOR-CEILING SYSTEMS, WOOD-FRAMED

WOOD JOISTS, GYPSUM WALLBOARD

Base layer 5/8" type X gypsum wallboard applied at right angles to 2 x 10 wood joists 24" o.c. with 1 1/4" Type W or S drywall screws 3/4" c.c. Face layer 5/8" type X gypsum wallboard or gypsum veneer base applied at right angles to joists with 1 7/8" Type W or S drywall screws 12" o.c. at joints and intermediate joints and 1 1/2" Type G drywall screws 17" o.c. placed 2" back on either side of end joints. Joists affixed 24" from base layer joints. Wood joists supported 1/2" plywood with exterior glues applied at right angles to joists with #9 nails. Ceiling provides one hour fire resistance protection for framing, including trusses.
