

The Redwood Coast Energy Authority (RCEA) is a local government Joint Powers Agency formed in 2003. RCEA's mission is to develop and implement sustainable energy initiatives that reduce energy demand, increase energy efficiency, and advance the use of clean, efficient and renewable resources available in the region.

Participating Communities

If you live in one of these cities or in unincorporated Humboldt County, you can be part of Community Choice Energy starting in May 2017. The transition is automatic—there’s no need for you to do a thing to participate.

Terms and Conditions

RATES: Redwood Coast Energy Authority (RCEA) electric generation rates are proposed to be stable and cost-competitive. Any changes to rates will be adopted at duly noticed public meetings of the Redwood Coast Energy Authority Board. Changes to PG&E or RCEA rates will impact cost comparisons between RCEA and PG&E. PG&E charges RCEA customers a monthly Power Charge Indifference Adjustment (PCIA) and Franchise Fee Surcharge. These fees are always included in our rate information. (Call (800) 931-RCEA to learn more.) These rates and cost comparisons may change over time. Financial assistance programs like CARE (California Alternate Rates for Energy), FERA (Family Electric Rate Assistance) and Medical Baseline Allowance remain the same with RCEA and will continue to be administered by PG&E. If you are enrolled in any of these programs with PG&E, you will continue to be enrolled if you choose RCEA.

BILLING: You will receive a single monthly bill from PG&E that includes RCEA's power generation charges. RCEA's electric generation charge replaces PG&E's electric generation charge. RCEA's charge is not a duplicate charge or extra fee. PG&E will continue to charge you for electric delivery services. If you opt out of RCEA, PG&E will resume charging you for electric generation.

ENROLLMENT: California State Assembly Bill 117, passed and signed into law in 2002, requires that Community Choice Energy programs like RCEA's operate as the primary electric generation service provider through an automatic enrollment process. Accounts within RCEA's service area are automatically enrolled with RCEA's REpower energy service

unless the account holder chooses to opt out or sign up for REpower+ 100% renewable energy. Account holders may request to opt out at any time, or to choose REpower+ 100% renewable energy. To sign up for REpower+, call (800) 931-RCEA or visit RedwoodEnergy.org.

OPT OUT: You may opt out of RCEA's CCE program at any time by calling (800) 931-RCEA, or by visiting RedwoodEnergy.org. Please have your PG&E account information on hand to process your request. There is no fee to opt out at any time.

Please be advised that if you do opt out and return to PG&E's bundled service, you will not have the option to return to RCEA's service for one full year, subject to PG&E's terms and conditions of service. Accounts will be transferred on the day the electric meter is read and cannot be transferred during the middle of a billing cycle. In order for your request to be processed on your next meter read date, your request must be received at least 5 business days prior to the date on which the meter is read. If you opt out after 60 days of service, you will have two options: 1) return to PG&E service immediately, paying PG&E's transitional electricity rate (which varies and could be higher or lower than PG&E's standard rate) for the first 6 months of PG&E service, or 2) provide notice of your chosen opt-out date 6 months in advance, then return to PG&E service at their standard rate after continuing service with RCEA for those 6 months.

FAILURE TO PAY: Redwood Coast Energy Authority may transfer your account to PG&E upon 60 calendar days' written notice if you fail to pay your bill.

**We're REpowering Humboldt County
with Community Choice Energy**

Lower rates · Local control · Same reliable service

**REDWOOD COAST
EnergyAuthority**

Electricity: local choices, local sources.

Redwood Coast Energy Authority is launching a Community Choice Energy program to benefit the County and its electricity ratepayers. This program costs you nothing—and will support local economic development, while advancing the use of more locally produced renewable energy resources.

You'll get the same reliability, with more renewable power—at a lower price.

It's simple

Just one bill. Your one combined monthly bill from PG&E will include power generation from Redwood Coast Energy Authority.

Same reliable service. You'll still call PG&E to start and stop service, and report outages and emergencies. They will continue to maintain the poles and power lines, read your meter and provide service.

Lower rates. Our rates will be a bit lower than PG&E's rates—with a renewable content that's a bit higher. Nothing else about your service will change. No new risks or hassles.

And you don't need to do a thing to participate. The transition is automatic.

The choice is yours

If you take no action, you'll be transitioned to **REpower**, our basic electric service, on your regular billing date. It's 37% renewable (well above state requirements and PG&E's energy mix) and costs slightly less than PG&E power.

If you want to go all-out, sign up for **REpower+** 100% renewable service. This option costs only one cent more per kWh than our standard REpower service.

If you'd rather continue with PG&E's standard bundled service, just call us at 1 (800) 931-RCEA or visit RedwoodEnergy.org to opt out. Be sure you have your PG&E bill on hand so we can help you.

How it works

When service begins in May 2017, all residential and commercial electricity ratepayers will be automatically transitioned to our basic service that costs slightly less than PG&E's current service. You'll have a choice to opt up to 100% renewable energy or opt out with a simple phone call or click. There's no fee to make a change.

Discount and alternative billing programs

If you're enrolled in any of PG&E's discount programs, you will continue to get your discounts with Redwood Coast Energy Authority without interruption—there's no need to reapply for California Alternate Rates for Energy (CARE), Family Electric Rate Assistance (FERA), Medical Baseline Allowance, or the Low Income Home Energy Assistance Program (LIHEAP). For Balanced Payment Plan (BPP) customers, RCEA generation rates will not be included as part of the BPP and will thus vary from month to month.

“We'll get **lower rates** and **local control**, with the same **reliable service**.”
