Agenda Item # 8 of the Community Advisory Committee's 1/12/20 meeting

Nancy Ihara 

Mon 1/11/2021 8:46 PM

To: Public Comment <publiccomment@redwoodenergy.org>;

I hope the Community Advisory Committee will support the idea that the subcommittee along with designated staff and consultants be authorized by the RCEA Board to continue pursuing alternative uses for biomass material. The potential of sequestering approximately 400,000 metric tons CO₂e per year is significant. I realize that this is a Board decision but the CAC's stated support would be helpful.
