

REDWOOD COAST
Energy Authority

Join RCEA's **Contractor and Vendor Network!**

The Redwood Coast Energy Authority's **Customer Energy Solutions** provides a suite of energy efficiency and electrification incentives and rebates to Humboldt County commercial, public, and residential customers.

Our Contractor and Vendor Network is a resource for customers to find contractors or vendors for projects relating to RCEA equipment rebates, RCEA Direct Install programs, and energy incentives offered by other programs.

- Be listed on RCEA's website with logo and brief description of business (RedwoodEnergy.org/contractor-vendor-network)
- Customers engage directly with contractors and vendors, avoiding excessive red tape
- Enrollment is as simple as completing a simple one-page form
- Hear about new incentives and rebates as soon as they become available
- RCEA will:
 - ✓ generate customer interest in energy projects
 - ✓ refer customers to the Contractor and Vendor Network
 - ✓ prequalify customers for our Direct Install programs
 - ✓ assist aligning incentives with your projects

Sign up today and open doors to new opportunities!

Visit the Contracting page of our website for application instructions and more information about this **Ongoing Opportunity**: redwoodenergy.org/contracting/
Submissions will be accepted on an ongoing basis.
