Rcea Board:

I have a few friends looking to join the EV world & your Carb 50% match would be a major tipping point in that direction. They are in the lower income side & they can prob. Squeak into a Bolt or similar w/ both Rebates. But, I believe the Rcea version has run out at this point [Jan 2023] The Carb /Cvrp has lots of dough left [like \$370 million] So,,,, Curious if the BOD might consider funding A re-boot to the program?? Thanks for considering.
