MID-TERM RELIABILITY RESOURCES

Redwood Coast Energy Authority

www.RedwoodEnergy.org

Solicitation issued August 7, 2023

Addendum 1 issued August 17, 2023

procurement@redwoodenergy.org

QUESTIONS & ANSWERS

1. **In addition to RA bids, will RCEA also be evaluating non-confirming bids (i.e., tolling agreements) in this RFO?**

Yes, tolling offers are eligible for this RFO in addition to RA-only.

2. **Would RCEA accept offers for more than its MTR compliance amounts, and if so, how many MW?**

Yes, offers up to 150 MW nameplate are eligible for this RFO. While the table in section 2.3 of the protocol shows RCEA's MTR compliance obligations, we recognize that larger resources may offer economies of scale and provide other benefits to our portfolio.

3. **Can you please confirm the quantity of NQC MW storage that RCEA is seeking? Is there a specific size that RCEA prefers?**

RCEA's preferred storage size is dependent on price, COD and other terms, but a range of 10-50 MW would best fit our portfolio needs. RCEA's preference is to see multiple size offers and how prices vary with size and other terms.
