QUESTIONS & ANSWERS

1. **Will RCEA accept project offers with CODs later than 06/01/2027?**

No. June 1, 2027 is the COD cutoff for this solicitation since that is the final Mid-Term Reliability deadline for non-long lead time resources.

2. **Interconnection agreements that are fully executed with the transmission/distribution operator are listed as preferred. Will RCEA consider submissions in which land rights are acquired but the interconnection agreement is not fully executed?**

Yes. It is not required for projects to have signed interconnection agreements to be eligible for this RFO, so RCEA will consider those that don't. However, a project that does have a signed interconnection agreement would score better in the evaluation than if it doesn't, all else equal.
