## **RESPONSE TO EXTENSION REQUEST**

---

RCEA has received a request to extend the deadline for submission of offers. RCEA declines to extend the deadline and asks that any respondent facing challenges in receiving needed approvals or information from regulators, permitting or interconnection authorities, or other third parties provide details on these outstanding issues in their offer submission, and specify by what dates they expect to have these approvals or information. Should such an offer be short-listed, RCEA will consider these issues in negotiating an exclusivity period of appropriate length with the respondent in order to minimize risk to both parties before entering a binding contract.
